

A middleware framework for seamless data sharing between Symantec's DLP and Vidyatech's Workflow System, FlowMagiq™

- ✓ Role-based Access Control
- ✓ Incident resolution in FlowMagiq™ replicates to DLP
- ✓ Closing comments in FlowMagiq™ posted in DLP as well

A secure connector integrates AD, Symantec's DLP, and Vidyatech's FlowMagiq™ Workflow System

Primary Products
Vidyatech FlowMagiq™
Symantec DLP

Connector Software
DashMagiq™ Connector for
DLP and FlowMagiq™

Solution Features

- ✓ An incident created in DLP automatically replicates in FlowMagiq
- ✓ Automatically sends emails and assigns incidents to user's manager
- ✓ A dashboard for Manager to view assigned incident files and details
- ✓ Automatically reminds and progressively escalates if no action is taken
- ✓ Role-based Access Control to enable faster and accurate remediation
- ✓ Incidents resolved in FlowMagiq automatically resolve in DLP too
- ✓ Updates final comments of the resolving manager in the DLP incident too
